Within the next 3 years, GrEnFln KA/ERASMUS+ project aims to design, test and pilot a joint/multiple educational path and a professional module targeted to a new professional figure, i.e. the Energy Expert. Given his expected key role in favoring the transition to a more sustainable economy, the EE must combine a number of competences usually belonging to different profiles as the engineering knowledge of the green sources of energy, the competences in sustainable

economy and the quantitative skills in risk management and financial engineering. As matter of fact we believe that only this interdisciplinary approach could allow HEIs to educate such a pivotal actor able to assure for a vital economy with an environment-preserving behavior. In the feasibility matter, the important role of the financial knowledge is discovered to be undeniable in order to realize the sustainable diversification of energy's supply thanks to a natural risk control policy and hedging.

Considering the objectives of the Project and in particular his commitment to face the new challenges of a transforming world with an inclusive global view by:

- Contributing to the decarbonizing process of the EU economy through investment in knowledge and competences for either high education and professional training in the Energy Sector
- designing an innovative and interdisciplinary European approach and framework to educate the "hero of the green economy", i.e. the Sustainable Energy Expert, having the pivotal role to assure for a vital economy with an environment-preserving behavior of companies and stakeholders
- developing and consolidating a long-lasting network and cooperation among industries and academia in the Energy Sector
- disseminating the best practices to address energy cross-border challenges in view of a sustainable development of the EU

Considering the mission of the institution

- HWEA/ELETAEN is the association of the scientists, professionals and the companies acting in wind energy in Greece. It has been a member of the European wind energy association WindEurope since its founding.
- HWEA/ELETAEN maintains and serves a twofold scope:
 - it seeks to promote the scientific research, technology, and applications of wind energy and at the same time
 - tries to effectively express the well-meant interests of the industry and the market by acting as a think-tank and dialogue forum with scientific documentation and competence.
- Its activities include a wide range of actions i.e. advocacy, policy development, communication, training, information dissemination etc.

Considering the convergence between the objectives of the Project and the mission of the organisation I represent, by signing this Letter of Intent I hereby declare the intention of the organisation I represent to cooperate with the GrEnFin consortium and to become an associated partner of the Project.

The organisation I represent agrees to:

1. *Support the dissemination and exploitation of the GrEnFin project activities and results*
2. *Support the Project consortium in the identification of specific needs of the Energy Sector*

3. *Support the Project consortium giving advise and proposing adjustment of the course and the professional module*
4. *Support the Summer Schools with specialized lectures or seminars in related fields*

Signing this letter of intent HWEA/ELETAEN authorizes the University of Bologna as the project applicant to publish the associated partner data provided in the Form enclosed, entirely or extracts, on the project related documents both on paper and on-line (e.g. project web site, etc.)
