h

fact we believe that only this interdisciplinary approach could allow HEIs to educate such a pivotal actor able to assure for a vital economy with an environment-preserving behavior. In the feasibility matter, the important role of the financial knowledge is discovered to be undeniable in order to realize the sustainable diversification of energy's supply thanks to a natural risk control policy and hedging.

Considering the objectives of the Project and in particular his commitment to face the new challenges of a transforming world with an inclusive global view by:

- Contributing to the decarbonizing process of the EU economy through investment in knowledge and competences for either high education and professional training in the Energy Sector
- designing an innovative and interdisciplinary European approach and framework to educate the "hero of the green economy", i.e. the Sustainable Energy Expert, having the pivotal role to assure for a vital economy with an environment-preserving behavior of companies and stakeholders
- developing and consolidating a long-lasting network and cooperation among industries and academia in the Energy Sector
- disseminating the best practices to address energy cross-border challenges in view of a sustainable development of the EU

Considering the mission of the institution

*Prometeia is a provider of consulting services and software solutions focused on Wealth Risk & Performance Management. Since the '90s, the company's activities have increasingly focused on the integration of research, analysis, consultancy and software development. Tech proposition, quantitative advisory, training and economic research: this distinctive mix of services has made Prometeia a leading company in Europe in risk and wealth management solutions, business consulting and advisory services for institutional investors. Prometeia's approach to WR&P Management is based on the development of quantitative models and analysis methodologies. The production of highly specialized software applications leverages leading technologies, the knowledge of our matter experts and our ability to respond to growing regulatory demands. A deep understanding of international markets, derived from proprietary economic research, adds a unique element to Prometeia's value proposition.*

Considering the convergence between the objectives of the Project and the mission of the organisation I represent,

by signing this Letter of Intent I hereby declare the intention of the organisation I represent to cooperate with the GrEnFin consortium and to become an associated partner of the Project. The organisation I represent agrees to:

1. Support the dissemination and exploitation of the GrEnFin project activities and results

2. *Support the Project consortium in the identification of specific needs of the Energy Sector*
3. *Support the Project consortium giving advise and proposing adjustment of the course and the professional module*
4. *Participating in the Summer Schools to give specialized lectures or seminars in related fields*

Bologna, February 27, 2020
