“Greening Energy Market and Finance – GrEnFln”*

**WP10 – D10.1. Final report concerning the internal evaluation of the results:  
quarterly report based on submitted Partners Actions Reports aimed to  
evaluation M30 – M32**

Work Package (WP)	WP10 - PROJECT EVALUATION
WP Leader	WU
Deliverable Title and Number	D10.1. Final report concerning the internal evaluation of the results: Quarterly Report based on submitted Partners Actions Reports aimed to evaluation M30 – M32
Release date	July 2022, M33
Version	Version 1
Dissemination Level	Confidential
Author	WU – Régis Gourdel
Main Contributors	WU
Revised and Approved by	UNIBO, MIW, SPEED

## INDEX

1. Summary of deliverables .....	2
2. Evaluation by deliverables and KPIs .....	3
2.1. Sixth project meeting bis (D1.6.8) .....	3
2.2. Seventh project meeting (D1.6.9) .....	3
2.3. Local Workshop, TAURON, Katowice Poland (D1.7) .....	4
2.4. Local Workshop for Umbrella organisation – Bologna, Italy (D1.7).....	4
2.5. Summer Schools and Intensive Programmes: Full Immersion Experience, Bertinoro June 2022 (D1.8).....	5
2.6. Reports on the validation’s activities M30 (D2.4).....	5
2.7. Report based on the workshop in Munich (M30) organized to discuss the possible criticality of the tested learning outcomes (D4.5) .....	6
2.8. Report on the preliminary definition of the new educational methodologies to implement for the professional module (D6.3).....	6

## Executive Summary

In this report, we provide an evaluation for all deliverables received between M30 and M32. Deliverables are first listed in a recap table and then discussed individually, assessing deliverable-level KPIs as set up within WP10 according to the Project Management Framework.

## 1. Summary of deliverables

WP	Lead organization (Pn)	Number	End date	Title	Level
1	P(1)	D1.6	M30	Sixth project meeting (part. 2)	Confidential
1	P(1)	D1.6	M32	Seventh project meeting	Confidential
1	P(7)	D1.7	M30	Local Workshop, TAURON, Katowice Poland	Confidential
1	P(1)	D1.7	M31	Local Workshop for Umbrella organisation – Bologna, Italy	Confidential
1	P(5)	D1.8	M33	Summer Schools and Intensive Programmes: Full Immersion Experience, Bertinoro June 2022	Confidential
2	P(1)	D2.4	M31	Reports on the validation’s activities M30	Confidential
4	P(2)	D4.5	M30	Report based on the workshop in Munich (M30) organized to discuss the possible criticality of the tested learning outcomes	Confidential
6	P(9)	D6.3	M31	Report on the preliminary definition of the new educational methodologies to implement for the professional module	Confidential

## 2. Evaluation by deliverables and KPIs

### 2.1. Sixth project meeting bis (D1.6.8)

This deliverable contains the material relative to the second part of the sixth project meeting of GrEnFin, which took place in Munich on the 28th of April 2022. The meeting was conducted in hybrid mode, held mostly in-person but with some attendants connected online. This meeting followed and complemented a first part carried out in the previous month (D1.6.7) that was purely online.

The meeting was organised by LMU, represented by Dr. Andrea Mazzon, and the minutes as well as other related material were compiled by UNIBO. A detailed evaluation is given in the deliverable D10.1 by WU that is specific to this project meeting. The KPIs given below are extracted from it.

#### Relevant KPIs:

Number	Title	Result
PI 0.2	Number of questionnaires submitted	15
PI 0.3	Response rate	100%
PI 0.5	Appreciation/ satisfaction rate	100%
PI 0.7	Number of attendants	17
PI 10.2	Final reports drafted at the end of every project meeting	Satisfied

## 2.2. Seventh project meeting (D1.6.9)

This deliverable contains the material for the seventh project meeting, which was conducted on the 24<sup>th</sup> of June 2022. It took place in Bertinoro, Italy, immediately after the Full Immersion Experience. The deliverable contains the minutes of the meeting, the presentations by the speakers, the agenda, the resulting to-do list, as well as other related material. A detailed evaluation is given in the deliverable D10.1 by WU that is specific to this project meeting. The KPIs given below are extracted from it.

### Relevant KPIs:

Number	Title	Result
PI 0.2	Number of questionnaires submitted	17
PI 0.3	Response rate	85%
PI 0.5	Appreciation/ satisfaction rate	100%
PI 0.7	Number of attendants	20
PI 10.2	Final reports drafted at the end of every project meeting	Satisfied

## 2.3. Local Workshop, TAURON, Katowice Poland (D1.7)

This deliverable reports on an event organised by TAURON on the 24<sup>th</sup> of March 2022. The event aiming to identify the key knowledge and competences that are seen as important by professionals from the sector, with the objective of improving the content of the professional module.

Unfortunately, an exhaustive evaluation of the event is not possible in so far as part of the information is missing, including the date when it was conducted or the number of attendants. Nevertheless, the number of questionnaires submitted indicates a satisfying number of attendants, and the report also mentions that both professors and professionals were part of the group. The questionnaire design that was chosen also does not allow for a measure of the satisfaction of participants.

### Relevant KPIs:

Number	Title	Result
PI 0.1	Respect of the deadline declared into the project	Satisfied
PI 0.2	Number of questionnaires submitted	42

## 2.4. Local Workshop for Umbrella organisation – Bologna, Italy (D1.7)

This deliverable reports on the event Umbrella Organization Meeting, organised by UNIBO at Prometeia on the 11<sup>th</sup> of April, 2022. It was conducted in person and in Italian. The event lasted the whole morning and featured six sessions on top of a Q&A. Three sessions focused on the implementation of the GrEnFin programme, and the other three covering topics of interest for professionals of the sector.

### Relevant KPIs:

Number	Title	Result	Observation
PI 0.1	Respect of the deadline declared into the project	Satisfied	

PI 0.2	Number of questionnaires submitted	10	
PI 0.3	Response rate	20%	
PI 0.5	Appreciation/ satisfaction rate	100%	This result has limited value in so far as no quantitative question was included in the survey, and the result is only based on participants all responding “yes” when asked if they found the event interesting
PI 0.7	Number of attendants	51	

## 2.5. Summer Schools and Intensive Programmes: Full Immersion Experience, Bertinoro June 2022 (D1.8)

This deliverable covers the organisation of the Full Immersion Experience, which took place in Bertinoro, Italy, at the end of June 2022. A first part relates the administrative work carried for the activation of the programme, starting from September 2021, and the elaboration of the programme’s curriculum within the consortium. A second part details the application process for university students, the selection criteria applied, and the structure of the curriculum offered. The third section then provided a similar overview for the professional part of the programme. Finally, the last section summarizes the collection and dissemination of material related to the Full Immersion Experience that took place after the event.

The document is provided together with eight annexes, including documents used in the dissemination such as leaflets, and those used to define the core concepts of the programme. The main part of the deliverable would have benefited from further proofreading.

### Relevant KPIs:

Number	Title	Result	Observation
PI 0.1	Respect of the deadline declared into the project	Satisfied	
PI 0.6	Number of applications	54	For university students. Applications originated from 12 universities
		14	For professionals.
PI 0.7	Number of attendants	28	For university students.
		10	For professionals.

## 2.6. Reports on the validation’s activities M30 (D2.4)

This deliverable provides further insight into the outcome of the Umbrella event organised by UNIBO at Prometeia Headquarter in Bologna on April 11. It first contains information on the organisation of the event, then discusses the objectives and the results from the event. On top of the results from the survey (also reported on in deliverable D10.2), the discussion of the results includes the testimony from students who were part of the pilot programme, and the outcome from the discussion during the round table. The last section covers the criticalities related to the event, starting with the low number of questionnaires collected (explained by the fact that all were filled online while the event was in presence).

On the form, this deliverable would have benefitted from further proof-reading, and its repeated mistakes previously highlighted, such as misnaming some partner institutions (confusion between WU and University of Vienna).

**Relevant KPIs:**

Number	Title	Result	Observation
PI 0.1	Respect of the deadline declared into the project	Satisfied	
PI 2.3	Number of countries covered by the survey	1	
PI 2.4	Number of organisations and project-relevant sectors represented in the survey	10	This count includes two universities and eight companies

The KPIs reported above for deliverable D1.7, which pertains to the same event, are also applicable to this report, but are not repeated here to avoid double counting of the same measurements.

**2.7. Report based on the workshop in Munich (M30) organized to discuss the possible criticality of the tested learning outcomes (D4.5)**

This report covers the organisation of an event at LMU to collect feedback from students who took part to the GrEnFin pilot programme in the previous semester, and advertise the GrEnFin project to a broader pool of students. The event was held online on March 24.

The document exposes the results from the event, consisting of the direct feedback collected from students during the event itself, and from the analysis of the survey from the corresponding D10.2 report. Another section then analyses the criticalities that emerged. The first one identified certain courses that students felt were missing in the curriculum, and the second criticality relates to the need for more marketing and advertisement, compared to what has been done previously. Finally, the last section reports on the discussion of the previous findings at the occasion of the sixth project meeting in Munich, including ways to collect more responses to questionnaires.

**Relevant KPIs:**

Number	Title	Result	Observation
PI 0.1	Respect of the deadline declared into the project	Not satisfied	The released happened after the initial month planned, although still within the same quarter

Several more KPIs related to the event can be found in the previous quarterly evaluation of results, for the D1.7 report that corresponds to the same event.

**2.8. Report on the preliminary definition of the new educational methodologies to implement for the professional module (D6.3)**

This deliverable reports on the design of the professional module, and the process that led to it, including how different needs were identified and taken into consideration. The report first discusses how both soft skills and hard skills are important in the profile of the sustainable energy expert, based on surveys previously conducted. In a second time, guiding principles of the module design are exposed, as well as the concrete organisation of the module for the first Summer Training. On this description, while the report provides an

extensive description of the module conception, it sometimes resorts to a rather abstract vocabulary, which obfuscates the practical aspects, and makes the implementation somewhat unclear.

### Relevant KPIs:

<i>Number</i>	<i>Title</i>	<i>Result</i>	<i>Observation</i>
PI 0.1	Respect of the deadline declared into the project	Satisfied
