

Summer Training

Katowice – 7/9 June 2021

“Greening Energy Market and Finance - GrEnFin”

Further Information: https://grenfin.eu/katowice_2021.php

WHAT:

An unmissable opportunity in the framework of GrEnFin project to test an innovative and interdisciplinary European approach to educate the "hero of the green economy", i.e. the Sustainable Energy Expert. 3 days-activities to experience technical issues on green energy and sustainable finance, quantitative analysis and topics in economic policy and business, coherently with the practices and the needs of a large array of market and operational contexts.

WHEN:

From 7th to 9th of June 2021

WHERE:

University of Economics in Katowice*.

WHO:

The target of the Summer Training are all the Professionals working already in the field but are willing to acquire new knowledge about the Green Energy Market and its relation with Finance. The GrEnFin Project Consortium will evaluate and select a restrict number of applicants in order to form a balanced class. The professionals who will attend the training experience will have the chance to test the module with no fee charge and will be awarded with an official certificate describing the skills and competences acquired.

HOW:

Submit to the email address info@grenfin.eu a single file that covers:

- Curriculum vitae
- Motivation letter
- Self-assessment of language skills (it could be done with the support of Europass Language Passport (ELP) found on the web page: <https://rm.coe.int/CoERMPublicCommonSearchServices/DisplayDCTMContent?documentId=090000168045bb52>)

Deadline to apply: 26th of March!

* If it will be not possible due to Covid emergency, it will be held online.

your participation in the
Summer Training: **April 30**

1

Option 1. A full path -
- Section 1,2 and 3

Section 1 Understanding The Green (R)Evolution (HERA)

It consists of four video Learning Units (LU) – covering material length up to 10 hrs:

- ✓ LU 1.1 Greening Corporate Strategy
- ✓ LU 1.2. Business opportunities and the EU Green Deal
- ✓ LU 1.3. Financial tools in support of the Green (R)evolution
- ✓ LU 1.4. Green Infrastructure case study: clean gases

At the end of each learning unit, the user will have to perform a learning verification test and a satisfaction questionnaire; there is no threshold to pass the test but our suggestion is to move to the next learning unit only if you have answered at least 60% of exact answers.

2

Option 2. A shortcut -
- Section 2 and 3

The access to **Section 2** is allowed only for those who pass an entry test based on topics of Section 1 (at least 6/10 correct answers)

Section 2 Developing Skills And Tools To Master The Green (R)Evolution

It consists of four video Learning Units (LU):

- ✓ LU 2.1. Project evaluation: assessing economic and financial fundamentals
- ✓ LU 2.2. Risk-management tools for a full-blown representation of the project
- ✓ LU 2.3. Support schemes for Green investments: a tool-kit economic review

Professionals can access the contents according to their specific individual needs and their previous experience. The length of a whole material is no longer than 8 hrs.

3

Option 3. Section 3 only
Katowice June 7-9

Section 3 Hera Case Study – A Biomethane Plant And Green Hydrogen

During the 3 days programme the participants have a chance to face a project work and solve a problem based on the case study about Biomethane Plant and Green Hydrogen.

Please take into account that to benefit the most from the project we strongly recommend to carry out contents of Sections 1 and 2 (at least in part)
